2	Clause 4.1.17 of RFP	PROVISION OF REQUIRED SPACE FOR SITE CAMP: Land may or may not be available adjacent to the site for setting up of contractor's site camp, storage space/yard, contractor's site office and workshop. It is contractor's responsibility.	The tender document does not specify space for labour camps, and since the project sites are in remote locations, arranging separate areas for multiple labour hutments will be difficult. L&T, which is already operating at these sites, likely has established labour hutments. If possible, it would be helpful to allocate space for our labourers within or near these existing camps. We will handle the setup of the labor camp ourselves.	No change. Only storage of materials shall be provided.
